Louisiana Professional Wear (LPW)
Letter from the President

Dear Distributor:

I established Louisiana Professional Wear in January of 2019. I am a former President and CEO of Neese Industries. My team at LPW brings over 20 years of individual experience to the protective rainwear market. We will remain a Louisiana based company and are located near the Mississippi River in the vibrant industrial corridor.

We would love to be given your consideration as a manufacturer for your customers' rainwear needs. At LPW, we have focused on the most popular rainwear fabrics, styles, and colors representing a significant portion of the industrial and public safety demand throughout the country. We use both quality fabrics and garment manufacturers hand picked from our past experiences. We feel strongly about our product quality and believe you will be very pleased with our pricing and the ease of doing business with us. Louisiana Professional Wear hopes to not only give you an excellent purchasing option, but we would love to work closely with you to support your long term needs. Please also be assured that LPW sells 100% of our product through distribution.

It is our goal at Louisiana Professional Wear to make your purchasing experience as seamless as possible. Therefore, we do not require a minimum unit order quantity or \$ spend amount to either open an account or when making additional future purchases from LPW. Price discounts are met at only 25 units. Feel free to combine styles, sizes, and colors to meet 25 units and enjoy this second column pricing discount on each and every item. We never charge for broken case purchases, drop ships to your customers, or pass on credit card surcharges to you. We offer screen printing for all LPW products. Same day distributor pickups are welcomed with minimal notice.

Distribution pricing is within this brochure, but we can be contacted at our toll free # 833-219-0992 or email us at sales@louisianaprofessionalwear.com.

We are inventory ready and would love to hear from you soon.

Sincerely,

Tim Sands
President
